

SOUTH RIVER PUBLIC LIBRARY
Online Database Features Guide
www.SouthRiverLibrary.org

Jersey Clicks

Jersey Clicks is a search engine that allows you to search all of the state library databases quickly and easily. The databases cover subjects such as health, history, business, education, science, current events, literature, and popular fiction.

Request a Library Card

The “Get a Library Card Online” option will allow you to apply for a library card from your local library. Once you submit your information, you will be emailed a temporary number that will allow you online access until you receive your library card in the mail

Quick Search

Quickly search magazines, journals, and encyclopedias after entering your topic and library card number. Click on your results and save, print, email, or translate the article.

Custom Search

Control your search results by selecting the databases you wish to search. Databases are grouped by student grade level, language, or field to help you select the database that will give you most relevant results. Options are also available to select multiple conditions or restrictions in your search.

Reference USA

A collection of databases including:

- US Businesses: Find business name, executive, type, sales volume, # employees and more.
- US Healthcare: Find physician name, age, state of license, medical school and more.
- US Residential: Find address, phone number, neighborhood information and more
- CorpTech: Find high tech company name, source of capital, country of ownership and more.
